

ECO-Skate®

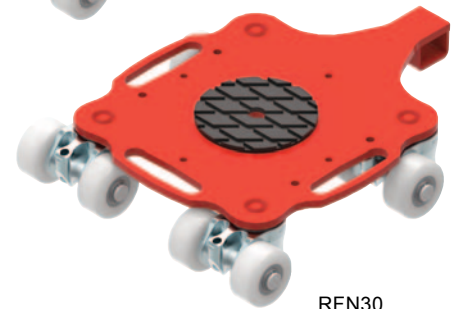

360° rotating skates now
with more capacities, easier
to steer, and multifunctional

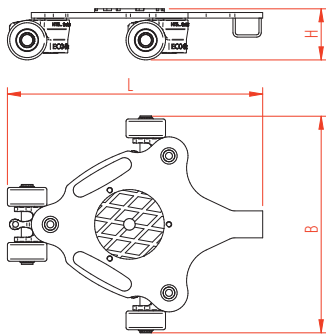

RMN9

RN18

RFN30

Turntable as option and fixed rear wheel boxes

Type

Type	RMN9	RN18	RFN30
Part number	10.009.08.40	10.018.09.40	10.030.09.41
Capacity (kg)	900	1.800	3.000
Wheel size (mm)	Ø 50 x 46	Ø 85 x 43,5	Ø 85 x 43,5
Number of wheels	4	6	8
Load area (mm)	75 x 75	Ø 150	Ø 170
Dimensions (mm) ^{L*BxH}	287 x 225 x 60	550 x 467 x 110	588 x 467 x 110
Weight (kg)	7	22	33

L* = Length including the back wheel

ETT STARKT VAL NÄR DET GÄLLER LYFT- OCH MATERIALHANTERING

The new **ECO-Skate®** ROTO 360° load moving skates impress in all series with the new narrow HTS nylon wheels and their ease when changing direction. The additional improved maneuverability is brought about by the optimized arrangement of the rollers on the frame of the system. The ratio of wheel to rotation axis is designed so that the steering operation can be done with significantly reduced horizontal forces.

In addition, the new **ECO-Skate®** ROTO MINI only has a built-in height of 60mm and is otherwise a master of tiniest.

The new **ECO-Skate®** ROTOflex and ROTOflex XL 360° skates can be converted into multifunction skate systems by combining, for example, alignment bars, steering bars and mountable turntables as well as locking pins. It can be used both as a classic rotational skate system with 360° rotation as well as fixed rear skates, steerable front units or so-called EZ-GO skate. The EZ-GO configuration, with the integrated turntable, will make changing direction even easier.

Type	RFN60	RFN80	RFXN12
